

FIREWISE USA®
RESIDENTS REDUCING WILDFIRE RISKS

How to utilize the California Specific Three-Year Action Plan

Please note that defensible space is required at all times for all buildings or structures within California's State Responsibility Area under Public Resource Code 4291 and for Local Governments with designated Very High Fire Hazard Severity Zones under Government Code 51182. Consult your local fire authority for local defensible space requirements if your community is outside of the land classifications above.

1. Double click in the header area and enter the name of your Firewise Community and enter the three-year span that this action plan will apply to.
2. Community description. Enter a brief description of your community, an example has been provided for you that you can delete.
3. Enter the year that will apply to the Year 1 efforts. Repeat this step for years 2 and 3, entering the consecutive years.
4. Utilizing the numbered bullet points enter the tasks that have been identified by your community. You can add or delete the number of tasks you have identified for your community; however, the Program Topics must be utilized.
5. The document will auto format as information is entered.
6. Once the document is completed it can be submitted through the Firewise Portal.

Orchard Springs Region, Grass Valley, CA, Community Wildfire Action Plan 2023-25

FIREWISE USA®
RESIDENTS REDUCING WILDFIRE RISKS

The Orchard Springs Firewise Community is in the town of Chicago Park, in the greater Grass Valley area. The area is bounded by the Bear River (including Rollins Lake Reservoir) and CA Highway 174. Orchard Springs Road is a primary ingress/egress route and forms the heart of the community. The area is at roughly 2300-foot elevation and is in the transition zone from the California foothills to the Sierra Nevada Mountain Range. This proposed Firewise USA™ Community Wildfire Action Plan was developed through input received during the Summer 2021/22 Firewise Assessment by Community members, and experience of the 2021 River Fire that approached the Community.

The goal of the Plan is to develop a strategy to incrementally achieve the Community goals of saving lives, homes, and money by organizing a Firewise Community and implementing this and future action plans.

In addition to the specific goals for each year, described below, the following actions will be implemented each year.

1. Annual recruitment drive to encourage additional and continued participation. Active members will reach out to friends and neighbors during the month prior to the Annual Refresher Potluck.
2. Schedule and conduct Annual Refresher Potluck with guest speakers. This annual gathering will touch on the basics of Firewise USA and the history of the Orchard Springs Firewise Community. Annual accomplishments and upcoming projects will be discussed, and invited guest speakers will provide up-to-date information on a variety of topics and continue to deepen community understanding and participation.
3. Residents to prepare/update/refresh GO bags, wildfire plan, family communication plan, and animal evacuation plan.
4. Residents to clear the immediate zone around houses, buildings, propane tanks, and fuel storage areas.
5. Residents to maintain and improve landscaping in the intermediate zone around houses and buildings.
6. Residents to maintain and improve fuel conditions in the extended zones around houses and buildings.
7. Residents to fill out and coordinators to consolidate Annual Worklogs.
